

Rawera Daniel

Front-end Developer

SUMMARY

I'm a front-end developer specializing in JavaScript, particularly React. I'm a driven individual who enjoys planning, building, and utilizing my skills to turn code into a robust product. I thrive on teamwork and constantly seek opportunities to learn from anyone willing to share their knowledge.

Recent Projects:

The-wild-oasis | HTML, CSS (Styled component), JavaScript, React, GitHub

– The dashboard displays statistics on total sales revenue, guest arrivals/departures, and stay summaries. Detailed cabin information, including capacity, prices, discounted prices, and sorting functionality by price or name, it comprises all booking details such as guest address, chosen cabin, booking status (unconfirmed, checked-in, checked-out), total price, and sorting functionality by date or status. user account management features, including registration, login, logout, and profile customization. It has separate preferences and a dark color theme option. This user-friendly dashboard saves you tons of time by providing all the features and information you need in one easy-to-access place.

Fast React Pizza | HTML, Tailwind CSS, JavaScript, React, GitHub

– Users can enter their full name, select a pizza from the menu, provide their contact details (phone number and address), and place an order with the option of priority. The website will display the name of the chosen pizza, the amount, the price, the time left for delivery, the order unique ID, and a search function to look for orders using the order ID.

Other Projects:

– Run tracker with leaflet Api, A healthy meal order website, search pizza meal recipe, and Bank transaction tracker.

WORK EXPERIENCE

Facility intern & Junior Administrative Specialist at GIZ African union | Addis Ababa, Ethiopian

March 2021 — November 2022

– As a junior administrative specialist, my key responsibility was ensuring the smooth flow of daily tasks. This involved collaborating with different units that foster my teamwork culture, and communicating effectively to prevent misunderstandings. Meeting deadlines was essential, which honed my time management, decision-making, and customer service skills.
